

Erasmus+

Welcome to Our School!

Our school is a general education institution situated in **Celestynów**, a picturesque rural commune in the Masovian Voivodeship, conveniently located near Otwock and just 40 km from the vibrant city of Warsaw.

At our school, we cater to a diverse community, welcoming children aged 3-6 in our kindergarten section and providing classes for students aged 7-15.

We pride ourselves on offering a **comprehensive curriculum** that includes the teaching of English and German. Our class sizes are conducive to effective learning, with most classes having fewer than 24 students and no division into groups. English is introduced from grades 1-3 with two hours per week, increasing to three hours per week from grades 4-8. German language instruction begins in the 5th grade.

In the years 2018-2020, our school successfully implemented the Mobility of school education staff (**KA101 Erasmus+**) project titled "We teach languages, we educate Europeans." This initiative brought about numerous positive outcomes for our institution, students, and teachers, with lasting effects on all beneficiary groups.

Continuing our commitment to international collaboration, from 2021 to 2023, our school embarked on the **Erasmus+ (KA122-SCH)** project titled "Competences are our strength!" This project was a response to the educational needs of our students, particularly during the challenging times of the Covid-19 pandemic. We aimed to provide European development paths to equalize opportunities for students facing barriers to education, such as limited financial resources or residing in rural areas. Our initiative focused on adapting to the dynamically changing educational environment, especially in the context of the digitization of education. The project enabled our students and teachers to broaden their horizons, gain new experiences, and acquire skills through international cooperation.

Here's what we can offer:

- **Proximity to Warsaw:** Our school is conveniently located not far from the capital of Poland, Warsaw.
- **Organized Trips to Warsaw:** We facilitate trips to Warsaw, offering city tours and access to its rich cultural centre.
- **Natural Surroundings:** Celestynów is surrounded by forests and protected areas, including the Masovian Landscape Park.
- **Forest Education Center:** We organize trips to the Forest Education Center in Celestynów, providing students with unique learning experiences.

Join us in shaping a bright future for our students through international collaboration and educational excellence!
